## *Second Preparation Card*

**Separate the cards into three piles:**

**Orange: Interference Patterns (IPs)**

- A. Muscle test how many IPs are blocking the goal. Shuffle the orange cards and have the client draw that many cards.
- B. Muscle test which IP to begin with.

**Violet: Spiritual Helpers**

- C. Muscle test how many additional spiritual figures to ask to help with this IP and draw that many cards.

**Green: Additional Interventions**

- D. Muscle test how many additional interventions to add to the regular treatment protocols for this IP and draw that many cards.

**Once the first IP is cleared, repeat the process with the next IP.**

Note: Alternatively, meditate, ask for spiritual guidance, and then intuitively draw however many cards feel right for each group.

Two interventions that may be new are the following:

1. Offer Golden Nectar. When encountering a difficult dark force entity or a reptilian, offer the entity a golden goblet filled with golden nectar. They can't resist, and drinking it lights them up from the inside. They can always have more nectar!
2. Restore the perfect Divine Blueprint. Great for physical problems, in this intervention, we simply ask the Spiritual Guidance Team to restore the blueprint for the organ, system, or all the layers of the biofield back to its perfect Divine Blueprint. Then as new cells form, they will slide into this new template. Skin takes 3 weeks to form. Bones take 7 years. Different organs take different time lengths.
